

Environmental and Sustainability Policy

Clean loops with less chemical, less water and less waste.

Document	SI-POL-003	Version	1.0	Effective	October 2026
Owner	Director	Review	October 2027	Applies to	All employees, contractors and subcontractors

Our commitments

- Comply with environmental law, including the Protection of the Environment Operations Act 1997 (NSW) and its equivalents where we work.
- Minimise the chemicals, water and fluid used to clean and fill a system.
- Contain and collect flush water and spent fluids, and dispose of them through licensed waste contractors with records kept.
- Carry spill prevention and response equipment on every site where fluids are handled.
- Use returnable containers and recover fluids for reuse where it is safe and approved.
- Plan logistics to reduce vehicle movements and emissions.
- Structure our management system to align with ISO 14001.

The Director is accountable for this policy. Supervisors are responsible for environmental controls on site.

This policy is reviewed annually, and after any significant incident or change.

Director, SI Critical Systems
